About Us

SIGMA LIFE SCIENCES is a pharmaceutical company committed to delivering high-quality, safe, and effective healthcare solutions. Guided by science, innovation, and ethics, we strive to improve patient lives and support healthcare professionals with trusted medicines. Our focus on quality, compliance, and continuous improvement enables us to meet evolving healthcare needs with confidence and care. We collaborate with WHO-GMP / ISO certified manufacturing partners to ensure consistent quality and compliance with national regulatory standards.

“Driven by Quality, Defined by Care”

Our Mission

To improve patient outcomes by providing reliable formulations at affordable price, ethical marketing practices, and strong scientific support to healthcare professionals.

Our Vision

To become a trusted and respected pharmaceutical partner for doctors by offering value-based products and maintaining long-term professional relationships.

Product Portfolio

Our product range includes carefully selected formulations across key therapeutic segments such as:

Cardiology

Diabetology

Gastroenterology

Antibiotics

Gynecology / General medicine

All products are developed with a focus on bioavailability, tolerability and patient compliance.

Quality Commitment

WHO-GMP certified manufacturing facilities.

Strict quality control at every stage.

Compliance with DCGI and Indian Pharmacopoeia standards.

Batch-wise quality assurance and documentation.

Quality is not a promise, it is our process.

Our Values

Ethics & transparency.

Doctor-centric approach.

Patient safety first.

Consistency & reliability.

Support to Healthcare Professionals

Scientifically designed visual aids.

Regular product updates.

Prompt availability & supply chain support.

Responsive medical and marketing team.

Our Presence

Currently operating in Gujarat and Maharashtra with a plan for gradual and sustainable expansion across India.
